6. Select Event screen and create new event

Hold down the Shift Key and Select "Start Scoring". You only do this first time you start BOS. Once you have ticked the remember button no need to hold shift key when you select Start Scoring.

Select CompScore2 and click on "remember this choice" Then click "OK".

Compscore2 will open. So select New Session.

Define your movement and then click on "Choose non-standard name and/or location for BWS file."

Then click "Change".

The following window opens up.
